

## The Agnitio Environment

The Agnitio CLM Product Suite has been engineered to afford the maximum functionality, with minimal hardware requirements. Consequently, our customers do not need to invest in a server back-end to enjoy the full range of products, since the Agnitio Product Suite is available on "Software as a Service"-basis. Only the client used by the Sales-Rep needs to be installed, so the tool can be available, regardless of internet connectivity.

### ***The full set of tools, to truly "Close the Loop"***

At Agnitio, we are able to provide you with the tools needed to take your CLM-initiative through the entire Loop:

**The Planner** for planning and conducting compelling electronic details

**The Analyzer** to measure your usage and effect

**The Manager** to handle users, presentations, and updates

**Agnitio Remote** for conducting product-details over the internet

All fully integrated, and available to customers without any infrastructure investments.
